PROFILE

Full Stack Developer and advanced Information Systems student. Solid experience in Java and SQL. Passionate about UI/UX design and software “understandability”. Focused on building scalable architectures. Experienced in leading teams under agile methodologies. Constantly learning. Recently achieved the **Ranger** rank on Salesforce Trailhead and was recognized as an **Agentblazer Champion ‘26**. Proactive and results-oriented, with the “Platform Developer I” certification as my next goal.

EXPERIENCE & FEATURED PROJECTS

Full Stack Developer (Extension Project)
Asociación Asperger Argentina & UNLu

Luján, Buenos Aires
04/2026 - Present

- Gather requirements and design the web architecture. Modernize the platform according to DSM-5 standards.
- Plan and implement an interactive map with geolocation to connect users with autism professionals.
- Define the tech stack and development roadmap with an interdisciplinary team. Prioritize accessibility and social impact.

Full Stack Developer & Project Creator
Simulador de Correlativas Académicas

Remote
02/2026 - Present

- Develop a SPA in React 19. Build an automated rule engine to validate over 40 subjects in real-time.
- Optimize architecture using Custom Hooks. Reduce component complexity by 70%.
- Design an interactive onboarding and a dynamic PDF export engine (jsPDF).
- Implement data persistence with Web Storage API. Create a “State Snapshots” system for academic path testing without data loss.

Full Stack Developer & Lead
ConectAR-Dev

Buenos Aires (Remote)
08/2025 - 12/2025

- Led a 4-member team using Scrum. Managed the backlog and coordinated agile ceremonies to meet milestones.
- Developed the MERN architecture. Integrated Mercado Libre and EmailJS APIs to expand capabilities.
- Implemented secure authentication and data persistence. Applied BCrypt encryption and server-side validations.
- Managed deployment on Vercel. Designed an interface focused on accessibility and understandability.

Research Intern
Universidad Nacional de Luján

Luján, Buenos Aires
03/2025 - 12/2025

- Systematized 41 academic documents in Zotero. Normalized structured data using QID identifiers in Wikimedia.
- Evaluated 12 AI tools to optimize institutional data analysis.
- Delivered technical training on BARS, SJT, and BEI methods to the research team.

Java Developer
Final Exam (OOP) - UNLU

Luján, Buenos Aires
07/2024 - 11/2024

- Developed the UNO card game as a LAN multiplayer desktop application in Java.
- Implemented the MVC pattern and OOP to separate business logic from presentation.
- Achieved a Client-Server architecture using the RMI library.

EDUCATION

Universidad Nacional de Luján, Luján, Buenos Aires
Bachelor’s Degree in Information Systems (Third year)

03/2022 - Present

TalentoTech & Salesforce, Remote

In progress

Salesforce Developer (Platform Developer 1 Route)

- 12-week intensive training with mentoring. Recognized as an Agentblazer Champion '26. Top of the cohort.
- Develop business logic and automations using Apex, SOQL, and Flow Builder. Integrate interfaces with LWC.
- Ranger rank on Trailhead (100 badges, 60,625 points). Solve high-difficulty Superbadges.

Fundación Pescar, Educación IT, L'Oréal & Fundación Karuna, Buenos Aires (Remote)

08/2025 -
